// profile

Senior Software Engineer with 4+ years of professional experience designing and building scalable web and mobile applications. Expert in PHP (Laravel & CodeIgniter), Vue.js and Flutter, with strong experience in multi-tenant SaaS architecture, VoIP systems, AI integrations and centralized authentication platforms. Proven ability to modernize legacy systems, design secure architectures and mentor junior developers.

// experience

2022 – PRESENT

Senior PHP / Full-Stack Developer

APN PHILS. INC.

- Lead development and enhancement of the company CRM platform used across departments.
- Architected features for an Omnichannel & VoIP system integrating SIP and WebRTC.
- Designed backend architecture for a subscription-based SaaS marketplace and secure REST APIs used across multiple products.
- Designed centralized OAuth-style authentication for multiple enterprise products.
- Spearheaded CodeIgniter-to-Laravel migration planning; contribute to system architecture, scalability and technical decision-making.

2022 – PRESENT

Part-Time College Instructor (Programming)

NATIONAL COLLEGE OF SCIENCE AND TECHNOLOGY

- Teach C++ OOP, Python Programming and Mobile App Development.
- Mentor students, guide real-world software projects and develop course materials.

2021 – 2022

Programmer

NATIONAL COLLEGE OF SCIENCE AND TECHNOLOGY

- Built the institution's payroll and payslip system; developed an inventory management system.
- Maintained and enhanced institutional websites and internal systems.
